

## **FRASER THE HYPNOTIST Canada's Hottest Hypnotist!**

Recently, we included Fraser's comedy hypnosis show as part of our Orientation Week activities at the University of Windsor for our Residence students. This event was a HUGE success! We had more than double the expected number of students attend and were delightfully overwhelmed with the reaction!

Fraser's show was an entertaining mix of comedy and hypnosis resulting in hysterical reactions from the audience. He provided a professional, entertaining and tasteful show. There was plenty of action and the laughs just kept coming!

The things the participants did while under hypnosis were not offensive nor degrading so they weren't humiliated or embarrassed but were hilarious and well received by the audience. Fraser created a safe, secure but very entertaining environment for the participants and audience alike.

Fraser knew how far he could push the boundaries in an environment where entertainers can be easily tempted to go for an easy laugh by indulging in the "raunch" factor, Fraser kept his show in good taste and provided a polished professional performance. He used current and applicable references which the audience related to and understood.

We will definitely include this popular show in our Orientation week line up for years to come! The feedback from the audience was fantastic!

Thanks for contributing to a very successful Windsor Welcome Week! We look forward to working with you again!

Kind Regards

Sandra Davis  
Manager of Residence Life
